## Council To Seek Vote On Income Tax Renewal

### Decision Made For Balloting Next November

#### Present Tax Ends Dec. 31; Police to Get New Cruisers

Salem City Council last night began legislative action to put a city income tax renewal for 1962 in the hands of the people by placing the question on the Nov. 7 general election ballots.

On a motion by Councilman Fred Koenreich (D-at Large), Council unanimously agreed to have legislation drawn up by the next meeting to authorize putting the tax question up to the voters.

Councilman Koenreich, in making the motion, said the present one-half of one per cent tax would expire at the end of this year and now was the time to begin taking action on whether or not there would be a tax next year.

The existing one-half mill income tax, which went into effect Jan. 1 of this year, was adopted by the present City Council as an emergency measure to raise needed funds for general city operation and capital improvement.

Koenreich, as chairman of Council's finance committee, reported that the first available report of receipts on the first - quarter collections of this year's tax will be given at the next Council session May 2. He said employers withholding tax from their employees have until the end of April to submit their first-quarter statements, and he has asked the city auditor for a report for presentation at the next meeting.

#### To Buy Police Cruisers

Council passed two ordinances authorizing the Safety Director to sell each of the two present police cruisers and to have the selling price of the two cars credited against the purchase of two new cruisers for city police operation.

The police cruisers now in use, 1958 and 1960 model Dodges, have cost the city substantial amounts of money in repairs to keep them on the streets. Recent malfunctions of the cruisers due to needed repairs have created situations where the police force was operating in a 24-hour period with

### Firm Delays Move From Massillon

CLEVELAND (AP) — Eaton Manufacturing Co. today delayed moving its Reliance Division in Massillon south by signing a one-year contract with the Allied Industrial Workers of America.

A company announcement said the contract, signed with Locals 28 and 306, will run through April 19, 1962.

It said the union agreed to a 16-cent-an-hour reduction in fringe benefits in lieu of a 16-cent-an-hour cut in basic hourly rates. The union also approved such contract changes as increased production and work rules changes management had submitted earlier the statement said.

Last week Eaton said it would move the Massillon plants to North Carolina because the firm could not maintain a competitive position under present wage scales at Reliance. The new site was not disclosed, but reliable sources said it was in Roxboro, N. C.

The company's decision to move was announced after union members had rejected the company's proposal for a 16-cent-an-hour wage cut and work rules changes. It was not known whether the company gave the union a guarantee the two plants would remain in Massillon permanently. The Massillon plants employ 600 to 800 workers.

#### Pretrial Recordings Played

### Eichmann Expects Death, Tape Says

JERUSALEM (AP)—In his own words replayed today from a tape recording, Adolf Eichmann said he expects the death penalty and is "ready to atone."

"I know that I can expect the death sentence and I don't ask for clemency," the former Gestapo colonel told Israeli police who questioned him after his capture in Argentina last year.

"I cannot claim mercy because I know I am not worthy of it," Eichmann said in the statement, which was recorded in June 1960.

In support of its charges that Eichmann was the operational director of the Nazi plan to exterminate Europe's Jews, the prosecution began replaying extended excerpts from 77 cartons of tape recordings of the pretrial interrogation.

#### Would Like To Write Book

His voice echoing hoarsely through the Jerusalem courtroom while he himself sat listening in the prisoner's dock, Eichmann said that before his death he would like to write a book. He said he wanted the younger generation to know what happened in Nazi Germany and the reasons for it.

Eichmann said he had been told in January 1960 that "I would be brought to trial and that I would not live beyond my 56th year."

He is 55 now. He did not identify the prophet.

"The first part of this prophecy already has come to pass," he said in the recorded statement.

"This case finds me in complete readiness and without any regard for my personality to tell everything that I know."

#### Accustomed To Discipline

"I have always been accustomed to discipline from my childhood right through 1945—unreserved discipline."

"I knew what disobedience would have meant for me. But matters of planning until 1945 were not handed to me at any time during the preceding 10 years. I was in a lower rank than the policy makers and planners."

"I cannot claim that I had clean hands. Those who planned and gave instructions, however, got off cheaply by suicide. Others are now dying or are not to be found."

"I know I should have hanged myself in public so that all the anti-Semites in the world would have had these terrible events stressed for them."

Eichmann pictured himself as a man who recoiled from the sight of blood and nearly fainted when he was forced to witness Jews being gassed to death in the Nazi extermination camps.

"I couldn't look. I tried to avert my eyes from the sight. I was too appalled to look," he said in describing his reactions the reactions the first time he saw Jews put to death.

#### Eichmann also said:

1. The order for the physical extermination of the Jews during World War II came directly from Adolf Hitler. They were transmitted to him, he said, by Reinhard Heydrich, chief of the security police of Nazi Germany.

2. He protested to his immediate superior, SS Gen. Heinrich Mueller, and others, that execution was not the way to resolve "the Jewish problem."

3. He begged Mueller not to send him to the death camps for further reports. He said that when he did go, he saw as little as possible.

Eichmann spoke in a deep, halting voice. There were many long pauses, and many times he told his interrogators, "I don't know. I can't remember exactly about that."

As he listened to the playback, Eichmann's expression changed. Heretofore it had been wooden, impassive, showing nothing.

Today, he leaned back with what appeared to be a satisfied air. A small, almost benign smile

played around the edges of his thin lips.

Before the playing of the tapes began, Capt. Avner Less read to the court a transcript of an interrogation session in which Eichmann said he was testifying freely into the recording machines.

### Police Capture Slayer of Two

#### Massillon Man Shot 4, Including Wife

MASSILLON, Ohio (AP)—An all night search for Cleo Porter, sought in connection with the slaying of two members of his family and the wounding of two other persons, ended with his capture today.

Police said Porter was picked up about a block from his home. Officers said he killed his wife, fatally shot her father and wounded two neighbors with shotgun blasts following a family argument Tuesday night.

Mrs. Judith Porter, 23, was slain at a neighbor's house, where she had run for safety carrying her two-year-old baby.

Her father, Jacob M. Hain, 51, who was shot in the back, died today in Massillon City Hospital.

Porter, 32, shot the lock off the door of the Clarence Reighart home and strode through the kitchen to the bedroom, where he shot his wife, according to Mary Ann Reighart, 18.

The girl told police Porter then turned his shotgun on her father and mother, before going back outside, where he shot his father-in-law. The porters had been living with Hain.

Reighart, 40, was shot in the leg and his wife, Elinor, 40, in the lower abdomen and right leg. The baby had been taken to another room by Mary Ann and was not injured.

The shootings reportedly followed a family argument, but Mrs. Hain said she had no idea what the argument was about. She said Porter didn't drink and that he "always seemed to be a reasonable person."

Porter was wearing trousers, T-shirt and slippers. He lost his slippers as he fled.

### City Misses Blood Quota By One Pint

The appearance of just one more blood donor at Tuesday's visit of the Red Cross Bloodmobile would have enabled Salem to reach its goal of 125 pints.

Twenty of the 124 pints collected were made possible by a last-minute effort of Red Cross officials and Blood Program Chairman Louis Raymond to replace

volunteers who were deferred because of colds or other recent illnesses and a few who failed to keep their appointments.

Dr. R. T. Holzbach, Dr. Fred Jose and Dr. Harold Hoprich were on duty during the blood collection.

Members of the Eagles Lodge and Eagles Auxiliary furnished, prepared and served food in the canteen.

Mr. Raymond said he will meet in the near future with church and industrial recruitment chairmen in an attempt to strengthen their efforts in working toward fulfilling the quota at the June 8 visit of the bloodmobile in the First Methodist Church. Hours will be from 1 to 7 p.m. in a continued effort to interest professional and business workers in cooperating with the blood program.

### Chief Urges Demolition Requirements

City Council last night received a letter from Fire Chief Clarence Wright requesting legislation to institute a system whereby permits would be necessary for a firm to demolish any residence, business or industrial building in the city.

The permits would be issued by the city, the chief said, to firms responsible for the following:

Insurance covering personal liability and property damage, protection of newly-exposed wall surfaces against weathering, safety of pedestrians from falling debris and structural failure occurring during time of demolition, clearing the site of debris and filling in or fencing off exposed basement areas, and penalties for a failure to carry out the above requirements and securing a permit.

The letter was referred to the safety committee of Council.

#### News Vague on Invasion Progress

### Rebel Air Raiders Strike at Havana

By The Associated Press  
Rebel air force headquarters at Havana during the night, bringing the conflict to the capital for the first time since invaders stormed ashore last weekend, the Cuban radio said today.

The radio reported a twin-engine B26 dropped a bomb on the

air force headquarters at San Antonio de los Baños, 25 miles from Havana, then wounded three persons in a strafing run on Havana.

A diplomat in Havana reported a plane that swept over Havana was met by heavy antiaircraft fire. He mentioned no strafing. A Cuban rebel radio station on Swan Island off Guatemala claimed Havana was bombed twice by three planes. It asserted one of the planes attacked Camp Libertad, army headquarters on Havana's outskirts.

The diplomat talked by telephone with an Associated Press correspondent at the big U. S. naval base on Guantanamo Bay in eastern Cuba.

No Information On Fighting  
He said the plane passed over the city at 8:15 p.m. Tuesday but otherwise "all is quiet for the present." He had no information about the situation elsewhere in Cuba. The situation was quiet around the naval base.

There was little news on the progress of the invasion force on the coastal front southeast and east of Havana.

The government put its firing squads to work, sending two Americans to their deaths. The Castro radio said five men who landed in Pinar del Rio Province of western Cuba to join the rebels were executed, and another group of four was shot for transporting weapons.

In the first group was August Jack McNair of Miami, Fla. The broadcast said the second group included Howard F. Anderson, a Havana resident from Seattle, Wash., an ex-Marine who once was the commander of Havana's American Legion post. He was arrested last month.

#### Denies Rebel Claims

A Cuban broadcast denied rebel claims of new landings in northern Matanzas and Oriente Province and said an attack against the Isle of Pines had failed. Rebel leaders had asserted earlier this week that the prison island off the south coast had fallen and its 10,000 political prisoners had joined the insurgents.

Information on the progress of the invasion and Castro's defense against it continued sketchy, with neither the government nor the rebel command announcing much and communications with Western newsmen in Havana still cut.

The Cuban government radio said fight is continuing in Las Villas Province, where the rebels are believed to have made their main invasion stab.

A correspondent for the Yugoslav newspaper Politika reported from Havana that an invasion force of about 5,000, "armed with tanks and guns, light arms of American production and under protection of airplanes are now without success trying to broaden the original bridgehead in the province of Las Villas, on the southern coast of Cuba."

Says Rebels In Retreat  
The Communist correspondent said the invaders captured a village Monday night "but the Fidel forces have reclaimed it in a counterattack, so that the attacking forces are in retreat back at the disembarkation point."

There were other indications that the outnumbered anti-Castro forces were under heavy pressure and there was no word of any nationwide uprising against the pro-Communist regime.

The rebel Cuban Revolutionary Council, in a communique Tuesday, said the invaders captured a village Monday night "but the Fidel forces have reclaimed it in a counterattack, so that the attacking forces are in retreat back at the disembarkation point."

### Replies to Red Threat To Aid Castro Regime

#### Says U.S. Will Move To Counter Any Action by Russians

LATE BULLETIN  
The Cuban radio charged an American military plane piloted by a U. S. citizen was shot down today over south central Cuba.

WASHINGTON (AP) — President Kennedy has fired a straight message to the Soviet Union warning to Soviet Premier Khrushchev to keep hands off Cuba.

Kennedy made it clear in a message to the Soviet leader Tuesday night that the United States will take immediate steps to counter any military intervention by outside force in the Cuban fighting.

#### Plans No Intervention

The President declared moral support for the "Cuban patriots in their struggle for freedom" and said again that the United States intends no military intervention.

As Khrushchev's reaction to Kennedy's message was awaited, officials here reported no evidence of any military follow-up by Khrushchev to his threat to supply "all necessary assistance" to Cuba's pro-Communist Fidel Castro regime.

Khrushchev's threat to aid Castro came early Tuesday in a message to the White House.

In tit-for-tat on Moscow's publishing Khrushchev's note before it reached Kennedy, the White House made public Kennedy's answer at the same time Tuesday night that Secretary of State Dean Rusk gave it to Soviet Ambassador Mikhail Menshikov.

#### JFK Worked on Reply

Authoritative sources said Kennedy personally devoted much time to wording his reply and conferring with advisers.

The result was a comparatively short—500 word—message sheared of usual diplomatic verbiage and using stronger terms than the restrained language Kennedy has used so far in his effort to get along with the Soviets.

Kennedy told Khrushchev:

1. The United States morally

### Woman Hurt In One of 3 Car Mishaps

A 38-year-old Salem woman received minor injury in one of three traffic mishaps investigated by highway patrolmen Tuesday morning.

Frances Hoff, 38, of RD 3, Salem, was treated for chest bruises at Central Clinic Hospital and released following a one-car mishap on Butcher Road, one mile southeast of Salem, at 8:40 a.m.

Patrolmen said the accelerator of the car stuck, causing the auto to go out of control into a ditch on the right side of the road and hit a telephone pole. Considerable damage was sustained by the car, patrolmen said.

In another accident, this one at 6:45 a.m., on Rt. 30, one-half mile east of Kensington, John Williams of Pittsburgh drove his westbound tractor-trailer off the right side of the highway into a telephone pole, causing minor damage to the front end of the truck.

The intersection of Routes 7 and 30 was the scene of a third mishap at 7:35 a.m. involving cars driven by William Davis, 39, of Warren, and James Schamp, 50, of Lisbon.

The patrol said Schamp stopped his southbound car for a stop sign and his auto was struck in the rear by Davis' car, causing minor damage to both vehicles. Davis was cited for failure to stop in an assured clear distance.

## Road Funds Bill May Pass Ohio Senate, Run Into Veto

COLUMBUS, Ohio (AP)—A bill to give local governments \$15 million more a year for road work was likely to pass the Ohio Senate today with votes to spare.

But Gov. Michael V. DiSalle is expected to veto it. And those predicting its passage today admit that the Republican majority may have a tough time finding enough

additional Democratic votes to override a veto.

The bill has been the subject of strong statements, particularly from the Ohio Department of Highways. If the bill becomes law, \$5 million now withheld annually from motor vehicle license fees to help operate the Highway Safety Department would be distributed to local government like the rest of the revenue from the license tag source.

As a result, the safety department would be partially operated through money received from the gasoline tax. This is money the Highway Department presently is using and doesn't want to surrender.

Twenty votes are needed to pass a bill in the Senate and the road funds measure was expected to get 26 or 27 votes. To override a veto, however, 23 votes are needed, and the 23 Republican senators can't be sure that at least three Democrats will oppose the Democratic measure.

The bill passed the House earlier, 198-75, and even though death of two GOP representatives has reduced the Republican margin there to 10-55, finding the necessary 84 votes to override might not be so much of a problem.

While senators are considering this and two other bills, the House has seven scheduled, including one to combat discrimination in restaurants or other public accommodations because of color, race, religion or national origin.

Backers and opponents were ready to debate on another bill up for a House vote. It would allow small loan firms to lend up to \$1,000 instead of the \$500 present maximum. Other changes would increase earnings per \$100 loaned.

In view of the number of bills to be considered in the House, it's planned to put off until Thursday a vote on three bills to boost penalties for gambling. The measures are aimed especially at the numbers racket and organized sports betting pools.

The lid imposed March 16 on introduction of new bills in the house was lifted briefly Tuesday to admit bill No. 1118. This calls for a \$6.25 million appropriation to replenish state poor relief funds and fill the gap between now and June 30, end of the two-year period for which the 1959 Legislature had appropriated money.

Gov. DiSalle says the money was not because of the unexpectedly severe economic downturn in Ohio and elsewhere. The bill was sent to the legislature more than five weeks ago by Finance Director James E. Malone. It originally called for \$7.5 million, but the controlling board released \$1.25 million when the fund threatened to go dry earlier this month.

The House Finance Committee planned to begin hearings on the bill today.

The average Canadian spends 23 per cent of his pay check on food, the average American 24 per cent.

## Mitchell Wins Nomination In New Jersey

NEWARK, N. J. (AP)—James P. Mitchell, newly nominated Republican candidate for governor of New Jersey, said today he will call on some old friends from the Eisenhower administration to boost his coming campaign.

Mitchell, former labor secretary, beat out two rivals in the Republican primary election Tuesday. In a victory statement, he said he had promises of aid from former President Dwight D. Eisenhower, former Vice President Richard M. Nixon, and New York Gov. Nelson A. Rockefeller.

Richard J. Hughes, 51, a former judge who won the Democratic nomination with only 10,000 votes, said that if Mitchell brings in national figures, he will consider calling on help from President Kennedy.

Returns from 4,775 of 4,824 districts in the primary election gave Mitchell 196,467 votes. State Sen. Walter H. Jones (R-60) and State Sen. Wayne Dumont Jr. (R-67).

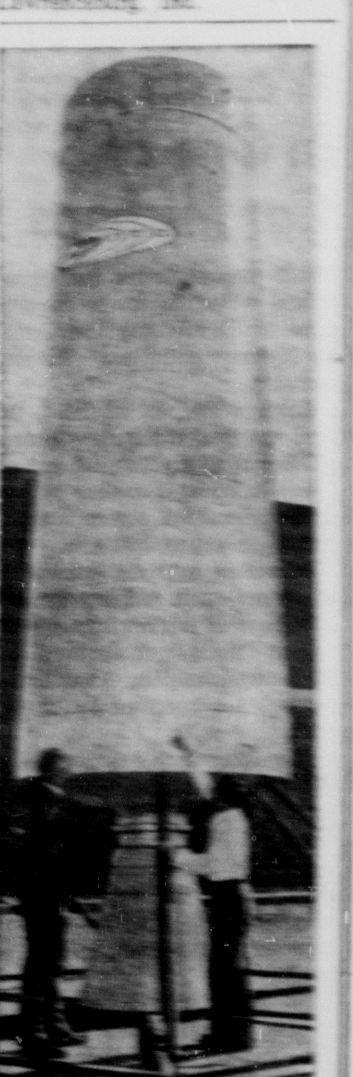

Mitchell's victory over the veteran state legislator installed a new leadership at the head of New Jersey's Republican party, with Sen. Clifford P. Case, a liberal Republican, in command.

Jones ran with the backing of two-thirds of the GOP county organizations. Mitchell and Case said Jones represented an old-line leadership that had squandered the party's supremacy in the eight years since Democratic Gov. Robert B. Meyner was elected.

Meyner could not run for a third term. He leaves office next January.

**FIND MAN'S BODY**  
HAMILTON, Ohio (AP)—A fisherman Tuesday found the body of James Cornish, 31, of Hamilton, who drowned in the Miami River trying to rescue a youngster. Cornish, father of two small children, drowned March 15 trying to save a 3-year-old who, with two others in a boat, had been pitched into the river when the craft went over a dam. Cornish' body was found 30 miles downstream near Lawrenceburg, Ind.

## Warren Holdup Case Expected To Go To Jury

WARREN, Ohio (AP)—The jury was expected to begin deliberations today in the case against Ronnie Carraha, of Struthers, charged with participating in the \$20,000 armed robbery of the Griswold Co. store here in 1958.

Prosecution and defense rested their cases Tuesday in Trumbull County Common Pleas Court.

Richard Stanley, a former Warren policeman and a paroled burglar, testified that Harold Huff, a Warren patrolman for 12 years, was an accomplice with himself, Carraha and four other men in the robbery.

Stanley said Huff stayed in a parked car used by the robbers in the holdup. He said the loot was divided in the cellar of Huff's home.

Huff, called to the stand by the defense, denied Stanley's charges. Huff said he had been assigned as an undercover agent to check on Stanley. After court adjourned, Police Chief Manley R. English and Capt. Verne Tepler both said they were convinced Huff had no part in the robbery. Chief English said a lie detector test given Huff bore him out.

Carraha took the stand in his

own defense and said he had no part in the robbery. He said he met Stanley several months after the robbery and that Stanley offered him locations for his vending machines. Stanley became angry when he refused to pay \$1,000 for these locations, Carraha testified.

## ANSWERS YOUR PROBLEMS

Dear Ann Landers: Our son is going with a girl who is much too good for him. We are worried about her but we are afraid to interfere.

Ralph is 18. He has a fine mind but he's obstinate, secretive, irresponsible and has a bad temper. He refuses to listen to anyone who tries to help him. We've tried our clergyman, doctor, athletic coach and friends.

Ralph has had girls crazy about him since he was 15. His romances always end the same way. He uses a girl for his own pleasure than drops her.

His current steady is so lovely it's heartbreaking to know she soon will join the others. Can we warn her?—SAD PARENTS.

Dear Parents: You can't go around warning girls against your son. Your real responsibility is to get this boy straightened around so the world will be safe from him.

A girl who would "go crazy" over a young man with the qualities you describe must be pretty mixed up herself. Disturbed people often attract each other.

Make an appointment with a specialist and get some advice on how to reach a bright, hostile, maladjusted 18-year-old Don Juan. You need professional direction.

### Sight Unseen

Dear Ann: I'm a widow, 52, in good health. I own my own home, a new car and have a modest income.

I've been corresponding for six months with a man I've never met. He lives 3,000 miles away and is a friend of a friend who thought we should get together.

His letters are so romantic I feel like a schoolgirl again. Last week he phoned and his voice is like Charles Boyer's. He wants me to sell my home and drive out to marry him. He said we can buy a brand new lovenest out there with the money I get from the house.

I wired my friend who knows him and asked for his advice. He said the man is "very nice" but he didn't want to be responsible for anything. Please help me, Ann. This may be my last chance for happiness.—MABEL.

Dear Mabel: A woman who would sell her home and drive 3,000 miles to marry a man she's never met has a clinker in her thinker.

Invite him to your city and arrange for him to stay with friends or in a hotel. Then, if you like what you see, take a trip out his way and meet his family, friends, clergyman, boss (and creditors).

### Foolish Routine

Dear Ann: Our 16-year-old son is trying to go steady with a girl who lives in another county. It is a 30-minute drive to her house from where we live. His father thinks he should date girls who live closer by or else find his own transportation.

We're constantly driving back and forth, dropping him off and going to get him. The public transportation is poor so don't suggest it. We refuse to let him drive until he's 18. He's been screaming about this for a year so please don't mention THIS possibility.

Our other two sons did exactly the same thing. What's the big attraction for out-of-town girls a n y w a y? Help!—WORN-OUT PARENTS.

Dear Worn-Out: Distance lends enchantment and you can't change that. But you CAN change your foolish routine.

Why encourage a 16-year-old boy to go steady by chauffeur-ing him? Maybe if he had to depend on "poor public transportation" he'd be going with other girls, which is what a 16-year-old boy SHOULD be doing.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Salem News, enclosing a stamped, self-addressed envelope.

## The Doctor Says

By DR. H. T. HYMAN

### \*Cracking Bones and Joints

Can you please tell me the cause and cure for cracking of joints? The cracking in my ankle, when I bend, is very embarrassing. I was advised to take cod liver oil and after forcing down nearly a bottle the cracking seems even worse.

And another correspondent, with a related problem, writes: "When I lift heavy things out of the washer, something in my chest has begun to crack. My husband can hear it crack. And recently, my chest has started to hurt just where you hear the crack. Is this serious? The place is just below my breast. Could it turn to cancer?"

Cracking joints, as described by the first letter-writer, are of no medical importance. I've been a knuckle-cracker all my life. When I was young, I was warned that knuckle-cracking would lead to enlargements and deformities of the joints. It hasn't. But these morsels of misinformation have more lives than the proverbial cat.

THE CRACKING of the second correspondent is another matter, but also not serious. It is unrelated to the breast or to cancer but often a cause for worry and errors in diagnosis.

If you will feel for the lower end of your breastbone (sternum), you'll find a movable firm body that's called the ensiform cartilage. Many patients, feeling this

for the first time, are fearful that it's a stomach tumor. It isn't, of course. It's a normal structure that once in a while suffers a blow or a pressure injury and hurts for quite a while before it quiets down by itself.

Now, if you'll feel along the lower border of the chest cage from the ensiform cartilage toward either side, you'll run your finger along the attachments of the free ribs. They're called free ribs because they don't attach firmly to the sternum as the upper ribs do. They sort of crunch together to form an archway for the abdomen.

WHEN THESE free ribs get spread wide apart as they do in the last months of a pregnancy or when they get jammed apart as from pressure or a blow they separate a bit. Medically this is called a subluxation. It's something like the dislocation of an ankle or a shoulder.

When these subluxated free ribs scrape against each other the may cause a crunching or cracking sound just as was described. This sound may be heard by others such as our patient's husband. The sound may be accompanied by pain, sometimes severe pain.

When this pain is on the left side, particularly in the male, it is easily mistaken for heart pain (angina pectoris). And when it's on the right, especially in a woman who is obese or pregnant, it is easily mistaken for gallstone colic.

Thus while this subluxation is medically unimportant and while the pain it causes usually goes away by itself or can be relieved

by local injection of an anesthetic it often is a source for anxiety. It is easily misinterpreted as an indication of serious underlying disease, but it's also easily recognized if looked for. All you need to do is press the trigger spot and you'll be in no doubt as to its harmless origin.

## Columbiana Youth Wins 4-H Award

Raymond Moser, 19, son of Mr. and Mrs. Albert Moser, Columbiana RD 2, won the James Fitzpatrick Memorial 4-H Award given by the Columbiana Rotary Club at its meeting Monday evening.

Moser has been a 4-H member for 10 years. A member of the Fairfield Boosters Club, he has held every office in the club. He was vice president of the Columbiana County Junior Leadership Club last year, a member of the Junior Fair Board, attendant in the royal court, and a counselor at a summer 4-H camp. He attended the Ohio 4-H Club Congress and won the state 4-H junior leadership honor award.

He was active on the judging team and in health and safety contests and demonstrations. A member of 4-H band since it was formed, he is a graduate of Fairfield-Waterford High School and a sophomore in the College of

Engineering at Youngstown University.

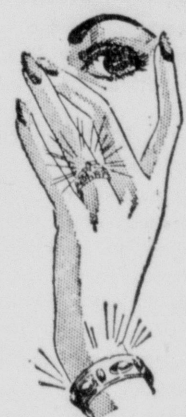

Gary Wilms won the award last year and is adviser of the Fairfield club this year, along with William Rymer.

### WANT MORE JUDGES

CINCINNATI (AP) — The 10 common pleas judges of Hamilton County want their number increased to 12, to cope with a flood of new cases accompanying increased population.

The judges agreed to ask action by the state legislature so that two more judges may take their posts by 1963, insuring that cases be heard in a reasonable time.

## new Falcon Futura by Ford

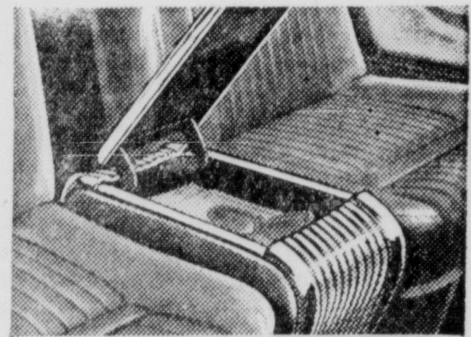

COMPACT COUSIN OF THE THUNDERBIRD

This week, something new and wonderful stands out in your Ford Dealer's showroom. It's the Falcon Futura, new luxury version of America's favorite compact—an exciting, new personal car! Try the comfort of custom-contoured twin front seats—take in the gleaming trim, the glowing colors, the deep wall-to-wall carpeting. And notice the custom console for personal effects—between the front seats. Only the men who designed Thunderbird could have created this masterpiece!

**Economy where it counts!** For all its elegance and luxury, Futura never forgets its Falcon breeding. Its engine is the famous Falcon Six, that proved its economy when a Falcon with standard transmission obtained a phenomenal 32.68 miles per gallon in this year's Mobilgas Economy Run... the best gas mileage ever obtained by a 6- or 8-cylinder car in the 25-year history of the Run! For those who are more performance-minded, Futura also offers a zesty, new 170 Special engine.

**Priced where you want it!** The new Falcon Futura gives you all these luxurious features...yet it's priced way below\* other luxury compacts—even below some standard compacts! Who could ask for anything more? The new Falcon Futura is at your Ford Dealer's now. Look it over—and look out for your heart!

## Tax Policy That Makes No Sense

This is the week that President Kennedy will announce which way the financial winds will blow during his administration. His recommendations on taxation policy are next on the schedule.

If he is a typical Democratic chief executive, he will recommend still more punitive income taxes, ignoring the principle that taxes which are too high stifle the economy that produces public revenue.

If he acts on the promises he has made, on the other hand, he will try to use the federal government's taxing power to stimulate the national economy, using ways that have been recommended by responsible financial experts for the last 10 years.

President Kennedy has the chance of a political lifetime for a showdown on fiscal policy.

Thanks to his background as a member of a wealthy family, he understands how wealth is accumulated and how it can be used to create more wealth.

Thanks to his background as the leader of a political party whose financial policy has been to penalize the possessors of wealth, he would be able to demand in good conscience a rule of reason instead of continuation of a vendetta.

And thanks to his inheritance from the Eisenhower administration of a fiscally sound government which restored faith in the dollar, Mr. Kennedy would have nothing to fear from prudence. The national recession has worn itself out. Tax revenue will be growing.

FEW OF THE Kennedy programs that would have cost large sums of money are likely to be enacted this year. The deficit he has predicted may fail to materialize, if only because of the federal government's sheer inability to spend money at the rate

that would be needed to make a deficit materialize.

President Kennedy might even do what long has needed to be done. He might re-examine the federal income tax in the light of what it has become under often haphazard and sometimes malicious administration.

In 1913, when the income tax was first collected, a married taxpayer with two dependents paid \$10 on a \$5,000 net income. No one was concerned about a little tax like that. No one was concerned about the fact the comparable tax was \$25,510 on a \$500,000 income. The rich could well afford to pay.

The tax on a \$500,000 income today is \$411,224. It is \$577 on that \$5,000 income with a wife and two dependents. It hasn't been only the rich who have paid. The federal bite has been wide and deep. And it has done the most damage to earners of middle incomes.

IN CORPORATE taxation, too, the damage has been greatest to companies and corporations hoping to do better someday. Foreign observers from capitalist societies always have wondered why politicians in the United States seemed intent on crippling the source of the wealth that provided their political prestige. To them it has made no sense. It makes no sense to Americans, either.

That is what President Kennedy could do this week. He could ask where the sense is in using federal taxing power to cripple and handicap the national economy. He could pass on the recommendations of financial experts from overdue tax reform that would use the federal taxing power to stimulate the economy, instead of to repress it.

## Where the Damage Began

Ray M. Peterson, vice president and associate actuary of the Equitable Life Assurance Society of the United States, has called attention in the current issue of the Journal of the American Medical Association to a widely misunderstood aspect of social security.

The public, he explains, has been given the impression that social security is like voluntary private insurance. It isn't. But because the public thinks it is, it thinks social security is tried and proved system of financing old-age benefits and therefore would a tried and proved system of financing medical care and hospital benefits. It has faith in the insurance concept.

The fact is that old-age benefits are paid from current taxes, they are not insurance at all. All money paid into old-age benefits is appropriated and spent, just like all other tax revenue. This also would be true of medical care and hospital benefits. Mr. Peterson calls it a "hope as you pay" basis.

Present workers and former workers now receiving old-age benefits, he points out, will contribute a great deal less than the govern-

ment's obligation, which will mean that young workers and those starting to work in the future will be stuck for much more in social security taxes than they ever can receive in benefits. Interest on the social security debt will run on forever, nibbling at the nation's ability to pay.

And debt will pile up faster than ever before if medical care is added to the social security because no minimum period is specified before benefits become payable.

The damage began in the '30s when old-age benefits that became payable under the Social Security Act were described by their proponents as a form of insurance. Mr. Peterson predicts a rude awakening when the American people learn that social security financing is "distinctly different" from voluntary private insurance.

"Will the youngsters of the future protest what the oldsters of this generation have voted for themselves," he asks. "During the decade ahead, will we oldsters, as we seek to enjoy our social security benefits, hear a rising clamor of unfairness—a din of inequity?"

## Handwriting On the Wage Wall

Walter Reuther's lively interest in salaries for workers does more than foreshadow a talking point in his negotiations with the automobile industry this year. The president of the United Auto Workers is foreshadowing what may become the biggest talking point in U.S. labor relations.

The claim is going to be made that income uncertainty could be abolished for wage earners. This is not as far-fetched as it sounds when the effect of 39 weeks of unemployment benefits already is a form of guarantee for three-fourths of a year and when auto workers have been drawing supplemental unemployment benefits.

A guaranteed annual wage always has had the connotation of something to be paid by employers as an obligation likewise a salary. What may be evolving is something quite different in principle—a guaranteed annual income for artisans paid for by a

combination of private enterprise and government.

If Mr. Reuther, who never has been caught napping on new points to bargain about in labor negotiations, could establish the principal that workers should be paid salaries, instead of hourly wages, it would follow as the night follows the day that salaries would be guaranteed through unemployment insurance, the same as wages now are guaranteed.

And one day it would follow as the day follows the night that the whole country would wake up to the realization that while it had been asleep the guaranteed annual wage had been introduced in a pilot version under the name of something else, with the public treasury providing in emergencies what the employer had failed to stow away in unemployment compensation and supplemental unemployment benefits.

## Once Over

By H. I. Phillips

No longer earthbound now is man, He zooms through outer space To look down on this earth, and say "Some small town sort of place!" Alone he rides close to the stars Where magic wonders loom; He sees our tiny globe and says "Some village, I presume."

He says "Excuse my dust" as he Roars through the Milky Way; He winks at Venus and remarks "I'll date that gal some day." The Martians sound their sirens as They show surprise and fear, Inquiring in panic tones "Hey, what goes on up here!"

Now Pluto hears a frightful roar And holds on to his hat As Neptune looks for cover and Cries, hair on end, "WHO DAT?" The cosmonaut jots down a note "The moon some day I'll make— If I can spare the time for it WITHIN MY COFFEE-BREAK."

"I'M SO NERVOUS I could fly," can get you signed up for an outer space these days.

We can't help wondering if Major Gagarin, stepping out of that rocketship after circling the earth in an hour 48 minutes, exclaimed "WHAT'S NEW?"

And we keep wondering if his little daughter, Yelena, asked mother "Where's daddy" directly after breakfast and got the reply "He's girdling the globe. He'll be back any minute."

The thing that floors earthbound man is that Russian major flew around the earth in about the time it takes to get a Pullman ticket properly made out at a railroad ticket window for a trip of 75 miles.

New president of Ford is John Dykstra, Holland born man, who got his early education in night schools, began working in U.S. as an apprentice toolmaker and got his first job in auto industry with Hudson 40 years ago. He has been vigorous foe of sloppy workmanship and holds that greatest need in all industries is restoration of pride of workmanship. "Inspectors can't inspect quality," he says. "The best guarantee of quality is pride of individual craftsmanship."

In a day when careless workmanship and an almost total brushoff of top effort is visible in countless trades, Mr. Dykstra's words ring a bell.

A sports magazine proposed to Dan Topping and Del Webb that an award to George Weiss as the top baseball executive of 1960 be mentioned in the Yankee-day opening ceremonies but got a brushoff. Weiss had served the Yanks for 30 years and given them everything he had. He, as much as any other man, was responsible for the team's successes. Figure it out, bub.

## 'I've Never Heard Such Whistling'

## Presidential Miseries

By RAYMOND MOLEY

In the past 41 years the nation has anxiously watched the bedside of four of its eight presidents. There was Woodrow Wilson who during 18 months of his second term was a helpless paralytic. During those months the nation had no head.

Warren G. Harding was an actual risk when elected.

Franklin D. Roosevelt was known to those who knew him best to be perilously ill when he ran for a fourth term.

Finally Dwight Eisenhower was felled by three serious attacks but had the distinction of having his doctors reveal every detail of his physical problems.

In the most interesting and meaningful book I have read in a long time, Dr. Rudolph Marx, a surgeon in Los Angeles, has given us a detailed clinical history of 30 past presidents. From these histories certain similarities appear which give significance to the physical ordeal to which presidents, more than most of us, are subjected.

In the first place there is the strain on the arteries and heart which the strain and anxiety of the office itself impose upon a

president.

THIS WE LEARN from these histories are in part caused by the inexorable demands which we ourselves impose upon our chief executive. Even the golf games of President Eisenhower, essential to the maintenance of his health, were subject to nagging criticism by his political enemies.

Next there is the secrecy which surrounds the occasional illness of a president. No one but the intimates in 1893 knew that President Cleveland had been smuggled on a private yacht and that on the voyage an operation was performed successfully to remove a cancer which necessitated the removal of a part of his upper jaw. There is also the confining life which a president must endure. Lack of reasonable exercise and normal living habits take their toll.

Some presidents according to the accounts of Dr. Marx accumulated inches of waistslines and pounds of excess fat. Grant, Arthur and McKinley were victims of little exercise and opulent dinners. Also the miserable climate, in which a purely political compromise placed the nation's capital,

brought to presidents for at least a century exposure to malaria, dysentery and other ailments. The hot summer has taken a drain notably in the case of the stricken Garfield in 1881.

INCOMPETENT security precautions exposed presidents to the murderous attacks of fanatics and cranks. Lincoln, Garfield and McKinley were the victims of incompetent protection.

In 1944 my informed journalist knew the truth. I tried at that time to suggest the idea that President Roosevelt was risking his life in running for a fourth term. At that time I wrote in a column a calculation to prove that despite the great increase in life expectancy among all of us the presidency had been running against the statistics.

I found that the presidents before Lincoln had lived an average of 70 years but that since Lincoln their average life had been about 63. As it happened President Roosevelt died at a little over 63.

A similar calculation, now because of the virility of Presidents Hoover and Truman, would show a smaller gap in the averages. Despite more science and better medical care, presidents are assured of fewer years than average men.

A bit of grim humor appears from the accounts in Dr. Marx's book. One President was killed because of a long speech. William Henry Harrison had been provided by Daniel Webster with an inaugural oration which he delivered for an hour and 40 minutes in bad weather. He caught a cold which killed him within the month.

Theodore Roosevelt in 1912 was shot by a fanatic in Milwaukee. The bullet first struck the thick manuscript of his speech in his breast pocket. It therefore resulted in only a superficial wound.

The old saying is that no souls are saved by a long speech. But in these cases one life was saved and one lost by verbosity.

## Adamant Khrushchev

By DAVID LAWRENCE

### Nikita's Bluff Tactics Won't Upset JFK

Nikita Khrushchev is adamant, defiant and inflexible. He has no present intention of making an agreement on disarmament or nuclear testing. He is convinced that the United States has no leverage over him and, therefore, cannot make him change his rigid policies that now threaten the David Lawrence peace of the world.

These impressions are derived from a reading of the positive views of the Soviet premier, as revealed in an interview obtained in Russia by Walter Lippmann and published this week.

Mr. Khrushchev is apparently relieved that what is called the Dulles Doctrine—that the neutrality of small states is allegedly "immoral"—has been abandoned by the United States. But further on the Soviet premier declares rather inconsistently that he doesn't think there is really such a thing as neutrality of individuals.

This must mean, of course, also the persons who head governments. He is, indeed, reported as saying that he would never accept a neutral to administer the proposed disarmament agreement, for he wouldn't entrust the security of the Soviet Union to any foreigner.

Mr. Lippmann concludes that in Mr. Khrushchev's view "there can be international cooperation only if, in the administration as well as in the policy-making, the Soviet Union has a veto."

Perhaps the most interesting piece of information that the Soviet premier conveyed was in relation to nuclear weapons.

He insisted that Russia had never done any underground testing and never will. This is incredible.

The reason he gives is that such tests were designed to perfect small tactical weapons. He says the Russians haven't wanted to produce them because they are expensive and are not decisive.

Just why expense should bother Mr. Khrushchev is a mystery, for at will he can deprive the Soviet people of the benefits of a higher standard of living by concentrating the use of their hard-earned funds on anything from a sputnik to a nuclear device.

He doesn't hesitate to spend the money of the people of the Soviet Union on a "very new and gadgety swimming pool" which Mr. Lippmann mentioned as one of the sights he saw at the Khrushchev headquarters on the shore of the Black Sea.

The Soviet Premier lost no opportunity during this interview to

get across to those who will be reading it his hostility to the American effort to work out a disarmament agreement.

As usual he becomes personal and attacks John J. McCloy, the man chosen by President Kennedy to head up the disarmament planning for the United States.

KHRUSHCHEV claims that Mr. McCloy is primarily a believer in armaments but the unpalatable truth which faces the Soviet premier is that the new head of the American disarmament group just doesn't want to see an agreement signed which would give the Russians any opportunity to cheat.

Yet Mr. Khrushchev speaks of the selection of Mr. McCloy as "a case of asking the goat to look after the cabbage patch."

American generals and admirals whose speeches are promptly censored if they say anything unfavorable about Mr. Khrushchev must have smiled as they read this wanton disregard of the "amenities" by the Russian dictator himself.

The Soviet premier as usual throws out hints and accusations which he knows are groundless but he never fails to put these suspicions into conversations, he has with American writers or members of Congress.

To say, as Mr. Khrushchev did, that the forces behind the Kennedy administration can be summed up "in the one word 'Rockefeller'" is to imply that the President is under some powerful influence exerted by the New York governor.

The American people and all the European observers who have been here know this isn't so but it suits Mr. Khrushchev to say, it largely because he has to find some way to insinuate that Mr. Kennedy is not a free agent and will not be making his own decisions.

EVERYONE who knows Mr. Kennedy—including the Russian ambassador to the U.S.—can tell Mr. Khrushchev that the President has an independent mind.

If by all this twaddle, the Soviet premier hopes to downgrade the American President or to regard him as a weakling who will kowtow to the Russian dictator, he has the surprise of his life in store for him.

The net effect of such an attitude as Mr. Khrushchev displays toward current questions is to increase distrust of the Kremlin and to stimulate efforts here to strengthen the American military position so that, if the dictator in his bluff tactics goes to the brink of war, the United States will not be found yielding but without flinching will accept the challenge.

# Inside Labor By Victor Riesel

For two days here last week behind tightly closed and often heavily guarded hotel rooms around town Walter Reuther told his colleagues of the old CIO that the AFL was ready to break with the old AFL and start a new CIO.

First, Reuther said, he would declare open war inside the AFL-CIO.

He said he was prepared to take on the powerful conservative leaders of the craft unions and their "ally," President George Meany of the AFL-CIO.

A check by this column of the leaders of 10 of the old CIO unions present at the closed session here in the Hotel Roosevelt's Vanderbilt suite, reveals that they

are ready for "open war." They said they were "getting nothing" out of the merger of the CIO with the AFL.

Evidence of the anger, the intensity and the seriousness of the CIO caucus called by Reuther and his partner Jim Carey could be seen in the secrecy of their conference on Thursday.

**GUARDS WERE POSTED** at the door from early morning. At noontime most of the 90 loyal Reutherites had their meal scalloped in. Only Reuther slipped out for a short while — and that was to plant a propaganda offensive against the old AFL.

For some time now Reuther has been preparing his former followers for an open break with the 13 million member federation.

One of the most recent of the CIO's confidential caucuses, for example, was held last February

Miami Beach. At that time Reuther laid it on the line.

He produced a copy of a "secret" agreement between Jim Hoffa's independent Teamsters and the 18 AFL-CIO building and construction trade unions.

This pact gave Teamsters support to the construction unions in their drive to put their members in maintenance work within big auto plants, steel mills, oil fields and refineries and in shipyards.

Reuther and the former CIO unions say that their own members are entitled to this work.

For example, John Grogan, mayor of Hoboken and leader of the CIO shipbuilding union, has pointed out that shipyard maintenance and repair work has been done by shipbuilders for 100 years. Now the unions of the electricians, the carpenters, the boiler-makers, etc., want to take over the work.

**THE CIO leaders** say that this is a raid. They insist that the jurisdiction of the Hod Carriers, the Operating Engineers and the crafts mentioned above is in new construction in other fields.

Tens of thousands of "internal" and maintenance and repair jobs are at stake in this fight.

At the Florida caucus Reuther said that the Hoffa-construction union pact gave Hoffa jurisdiction (hauling) up to the building line and almost everything else inside to the 18 craft unions. This left mighty little, the red-haired one said, to the CIO unions in the plants and at the rocket bases.

Reuther then said he had confronted George Meany with the pact and had asked him to repudiate it. Reuther said that Meany had not done so.

Reuther then told his own CIO people that he wanted their backing in this war or he'd go it alone and they too could do without him. They told him they'd back him.

**A MONTH** or so later, Reuther and Carey — who have been getting into violent arguments with Meany — personally dispatched telegrams to the 29 unions which had made up the old CIO.

This was the call to the April 13 caucus. Some 90 of those invited showed and talked in terms of "this is an open split . . . this is war . . ."

Jim Carey attacked the AFL-CIO (that is still the formal name) leadership with charges of apathy.

There were representatives, for example of the fiery Mike Quill of the Transport Workers Union. They had earlier distributed a sharp attack on the construction unions.

The TWU has been striking a big utility here — a company now erecting a \$25 million building.

The construction unions have ignored Quill's pickets and have continued to build the new headquarters of the struck gas company. There is no doubt that Quill and many like him are ready to walk out of the merged federation.

Mixed with the anger of the feud is a nostalgia for the old militant type of CIO unionism, circa 1937 sit-downs. That was a vintage year for them.

## 12 Hear Talk on Feed Grain Program

**LISBON** — Twelve persons attended a meeting Monday evening in St. George's parish hall when an explanation of the feed grain program was given by the Columbiana County Agricultural and Conservation Committee.

The ASC office is now busy preparing notices for each corn farm informing the operator of his base corn acres and the payment rate per acre. The notices should be ready for mailing not later than Monday, and information on a general meeting for farmers will accompany the notice, according to Earl Lora, director of the county ASC office.

First chewing gum patent was issued to W. F. Semple, Mount Vernon, Ohio, in 1869.

**LISBON** — Purchase of checks and a juvenile court docket was made by the Columbiana County commissioners at their meeting Monday.

Herr Printing Co. of Columbus was awarded the contracts for 15,000 payroll checks at a cost of

\$270 and 20,000 regular payment checks for \$149.

A criminal docket for the juvenile court was purchased from the Dayton Blank Book Co. for \$98.75.

Travel allowances were approved for Dog Warden Russell J. Reichenbach of North Georgetown and Harold McCall, assistant dog warden, to attend the Eastern

Ohio Dog Wardens Assn. meeting in Zanesville tomorrow. The commissioners' next meeting will be Thursday from 9:30 a.m. to 4 p.m.

## REVIVAL OF THE 20'S

Many of the current hair fashions are reminiscent of the 20's. There are variations of course. They all seem to have three features in common: a close-to-the-head helmet shape, a short and shaped back line that's not quite a shingle and single long-line curls at the earline. These long, graceful curls can swirl in front of the ear like a curled sideburn or curve behind the ear and finish on the cheek.

# BULLETIN: Shell Research scientists reveal how they got 168.47 miles per gallon

One hundred and sixty-eight miles per gallon must be a world record. Like most world records, it took enthusiasm and hard work.

The two Shell scientists who hold this record have told us how they managed it. They have also added some tips on how you can increase your car's mileage. Not by using their own outlandish techniques. But by careful driving and today's Super Shell gasoline.

**SHELL** scientists thrive on competition. Some years ago, an argument as to who could get the most miles out of a gallon of gasoline boiled up into a challenge. And Shell's Mileage Marathon was born.

Shell scientists have competed in this Marathon for several years. Not as a publicity stunt. But purely as a private contest. They use their own cars, time and money.

**Not for everyday use**  
The best mileage recorded so far is a resounding 168 miles per gallon.

Many of the things contestants did to achieve this world record are not recommended for use on the public highway. But they do throw some light on what makes a little gasoline go a long way.

**Record-breaking car cost \$35**  
Shell's record-breaking car was a highly modified 1924 coupé (see cut). It was rescued from a junkyard for \$35.

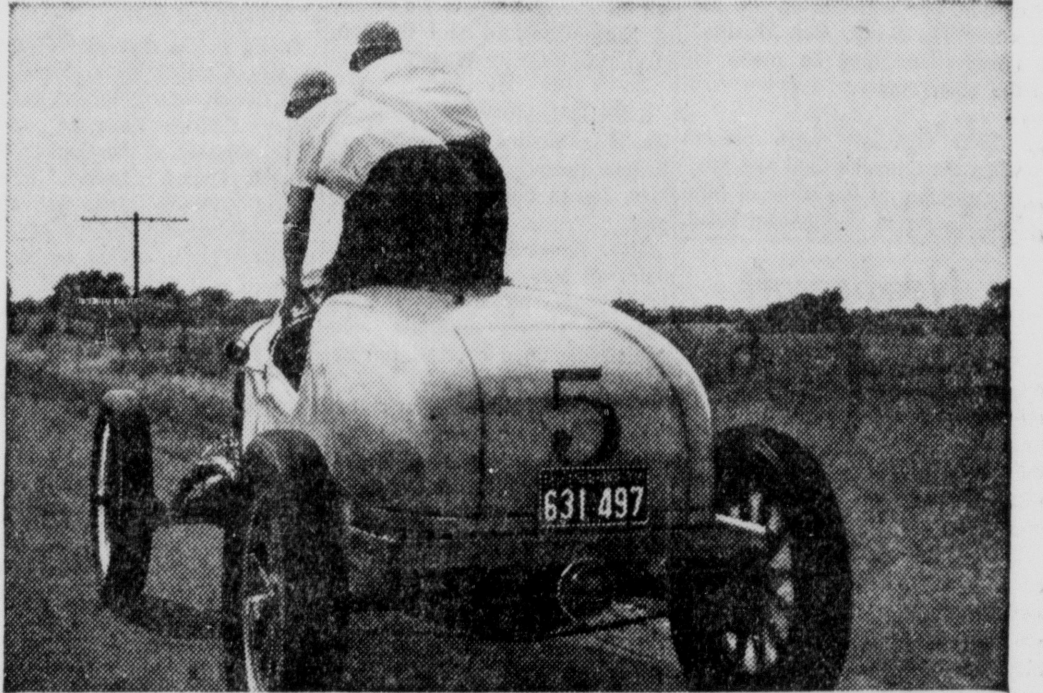

The only requirements that had to be met to qualify for the contest were simple.

The car had to have four rubber-tired wheels. It had to weigh no less than 2000 pounds. It had to have at least 100 cu. in. piston displacement. And it had to use gasoline that anybody could buy at a Shell service station.

After that, no holds were barred. The car that won used a standard carburetor from an old one-cylinder engine.

**Tire pressures up to 110 pounds**  
Some contestants inflated their tires as high as 110 pounds per square inch to reduce road-wheel friction.

**One push and wheels spin for 30 minutes**  
Since the contest had nothing to do with wear, many liberties

Dave Berry and Fred Schuette, in the rebuilt 1924 coupé which set the world mileage record. Its original frontal area was reduced by about 75 per cent to cut down wind resistance.

were taken with lubrication. On the winning car — the wheel bearings were lubricated with light engine oil to reduce drag. It worked.

**When the front wheels were jacked up and given an experimental push, they continued to spin for half an hour!**  
Of course, no Shell service man would ever approve of such liberties being taken with your own car's lubrication.

**The champs' "on-and-off" driving**  
Shell's record was set in two trips over an 11.94 mile course. The run was almost a walk.

The winning car was accelerated to 20 miles per hour, at which point the driver cut his engine and coasted in neutral.

Only when the "speed" dropped below 5 miles per hour was the engine restarted and the cycle repeated.

All acceleration was done in high gear. There was little choice. All other gears were removed prior to the contest.

**Serious—or scientific fun?**  
You already know the result. But, since "on-and-off" driving is illegal on the public road—and since most marathon modifications are positively dangerous for normal use—you may be wondering if Shell's Mileage Marathon has any point. Is it a serious test? Or is it merely a scientific picnic? The answer is—a bit of both.

**Knowledge passed on**  
When Marathon Day rolls around at Shell, there is certainly a picnic atmosphere at the testing grounds.

But remember that the Marathon is only a climax to months of serious work. Not everybody sets a record. But every contestant learns a little more about the care and feeding of automobiles. Which, after all, is Shell's main job.

Eventually, every bit of this knowledge is passed on to you in the form of better products.

Today's Super Shell is a shining example. Thanks to continuous engine studies and mileage tests, Super Shell now contains a special mileage booster called Platformate.

Among Platformate's components are benzene, toluene and xylene. These three components alone release 11 per cent more energy per gallon than the finest 100-octane aviation gasoline.

The lesson is obvious. The first thing you do to get extra mileage is to put extra energy into your fuel tank, by using today's Super Shell. Then, if you want even more mileage, take these tips.

1. Don't race your engine when stationary. Every revolution is pure waste unless it is taking you somewhere.
2. Avoid jack rabbit starts. They waste gasoline by holding automatic transmissions in low gear too long.
3. Drive at moderate speeds. Your car uses about 40 per cent more gasoline at 60 mph than at 35 mph.
4. Keep an even speed. Ragged driving uses fuel without using the power it generates.
5. Keep tires up to their proper pressures. Soft tires soak up power like a blotter soaks up ink.
6. Get your Shell man to make these checks. Your carburetor should be adjusted periodically. Spark timing should be correct. Fuel filters and air cleaner should be clean. Brakes should be properly adjusted. And your thermostat must be in working order.

Use today's Super Shell and follow these suggestions. You may get as much as 30 extra miles per tankful. We can't guarantee this saving. But, unless you're a millionaire, it's worth thinking about.

# Girard Feels Sting of Salem High Track Team

## Quakers Roll Up 87-31 Decision

Track Slow But Call, Edling, Janovec, Beery Pile Up Points

By DICK BRAUTIGAM

Sweeping firsts in 11 of 14 events, Coach Karl Zellers' Salem High track team rolled to its fourth straight dual meet victory of the season Tuesday at Reilly Stadium by trouncing the Girard Indians, 87-31.

Cold weather and puddles of water on the track prevented anything in the way of outstanding times yesterday.

Salem's star hurdler, Herb Call, ran only at half steam but still pulled away from the field in both the high and low hurdles. He was clocked at 16.5 in the 120 high and at 24.1 in the 180 low.

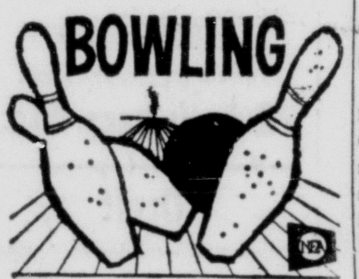

Leading point-getter in the meet was Salem's Dave Edling who won both the 100-yard dash and the broad jump and was a member of the Quakers' winning mile and half mile relay teams.

**EDLING CLICKED OFF** the 100 in 10.9, just nipping teammate Jake Evans who was clocked in 10.95. The speedy junior's winning broad jump was 18-0. Quaker sophomore Dave Capel placed second in this event with a leap of 17-7½.

Rick Sulea, Salem's top broad jumper, did not take part in this event yesterday. He pulled a muscle while winning the pole vault.

Edling's partners in the mile relay were Jim Ward, John Floyd and Bill Beery. They ran the mile in 3:51.9, their best time this season. When anchor man Beery crossed the finish line, his opponent was almost 200 yards behind.

THE HALF MILE RELAY was

Gerry Gilbert rolled a 573-225 to pace individual scorers on the final night of action Tuesday in the Mixed Foursome League at Saxon Lanes.

Jim Susic notched a 551 and Jerry Brady was one pin further back at 550. Jon Zeigler recorded a 221 and Dick Bray had a 200 in single games.

Leading the women was Betty Viola with a 505-197. Ginny Vogelhuber came up with a 476-165 and Nancy Barclay registered a 464-171.

Team honors went to Dinsio Bros. which posted a 1978-689. M & E Market was second with an 1885-642.

Bruce Riley really turned on the steam in the Ten Pin League, compiling a 683 series on games of 233, 182 and 268. Dale Garlock blasted a 595-195-187-213 and Jim Jackson had a 564-159-200-205.

Besides Riley's 268 high single, Bill Stainer turned in a 232 and George Crawford had a 222.

Team totals were paced by F.O.P. No. 88-Dan Dee which carded a 2836-964-840-1032. Wade Schaefer's Garage had a 2572-837-844-891 and Salem American Legion carded a 2523-908-796-819.

## Columbiana Five Advances In Little City Tournament

Columbiana Gosney Insurance, Canton Lee Stockton's Collegians and East Liverpool American Billiards battled their way into the quarterfinals of the Salem Little City Basketball Tournament by chalking up victories last night at the Memorial Building.

Gosney's knocked off Cleveland B & W Tree Service, 77-64; the Collegians clobbered Damascus Bayless Gas, 116-64; and American Billiards trounced Girard P. L. Gibson Insurance, 97-70.

In a first round game, last night, the New Brighton Bears made a successful debut by racking up Alliance Forest & Moser, 93-73.

**GOSNEY INSURANCE** doubled the score on B & W Tree Service in the first quarter (20-10) with Bobby Adams and Gorge Ramsey finding the range early for the Columbiana quintet.

The Clevelanders cut the deficit to 36-34 by intermission only to see Gosney's pull away again in the second half.

High point man in this fray was Hemrick of B & W who popped in 25. Adams' 18 markers were high for Columbiana.

Lee Stockton's Collegians had too much of everything for Bayless Gas. The Damascus quintet trailed only 19-13 after the first eight minutes of play but the tall Canton team started pouring it in the second quarter.

**WOLFE, AKRON GOODYEAR** cager, hit 30 points for the Collegians while Dave Scott and Quinlan Sullens each hooped 20. Scott is the cager who holds most of the individual scoring records in the 27-year-old Little City

Tournament. He scored 61 points for the Collegians in one game here in 1959.

Clark Avery and Ed Daugherty led Bayless Gas last night with 16 and 14 points, respectively.

Frank Chan tallied 29 points and Miles Witchee and Phil Jackson each hooped 20 for American Billiards in its 97-70 win over Gibson Insurance. Beach paced the losing Girard aggregation with 20.

The New Brighton Bears also displayed plenty of scoring punch in their 93-73 rout of Forest & Moser. Led by Jackson's 25 markers, the boys from Geneva College had four men score in double figures. Jim Forest paced the losers with 24 points.

Referees for last night's games were John Cabas, Sam Pridon, Al Catlos and Tom Nedelka.

**SALEM DAVIDSON SALES**, which opened with an impressive 103-61 win over Sebring Collin's Dairy on Monday night, will take on Rochester, Pa., Amo's Esso in one of the four games on tonight's card at the Memorial Building.

Davidson's features Salem Class A champion Old Dutch players, plus Greenford High Coach Jerry Suss who scored 54 points in his first outing here.

Powerful Cleveland Blepp-Coombs will make its tourney debut tonight against Warren Cortland Cleaners. Another area team, Beloit Denny Farm Equipment, will tangle with Beaver Falls Cornecki's Sports Bar.

The Beloit crew has Damascus area cagers, plus the ace of this year's Alliance High School quintet, Doug Duncan.

Here is the schedule for tonight and Thursday:

### Decision Boomed by Fans

## Brown Scores Win Over British Foe

By RONALD THOMSON

LONDON (AP) — Have crown, will travel, was lightweight champion Joe Brown's pledge today after whipping Dave Charnley in his record 10th title defense.

"I am ready to travel anywhere in the world to defend my crown," said the 35-year-old American with the elegant touch, who outpointed the British and European champion in 15 blistering rounds before 18,000 at London's Earls Court Stadium Tuesday night.

Even two sets of swollen knuckles and the actions of spectators who jeered the decision couldn't dampen the spirits of the Baton Rouge, La., Negro, who may pocket as much as \$50,000 from the bout.

He'll go anywhere to fight, he said, and that might mean the Philippines, where he has an offer to defend against either Flash Elorde or Bert Semodo.

The decision touched off an outburst of booing by many in the hometown crowd. Brawling broke out in some parts of the hall. A bottle conked one fan on the head. Police escorted referee Tommy Little, the sole official, from the ring through a line of jeering fans.

Brown shrugged off the demonstration.

"Man, you get to expect this kind of thing when you're fighting away from home," he said. "After all, this isn't Houston."

Most observers agreed that Brown had all the class and de-

served the decision after leaving the blood-soaked Charnley with nothing but his fighting heart.

Brown, who stopped Charnley on cuts in five rounds in their first title bout in Houston 16 months ago, opened a cut on the bridge of the Briton's nose in the first round that bled freely the rest of the way. He fought back gamely in the last four rounds but Brown stayed in control.

# Reds Clobber Giants 9-1, Take National League Lead

## Dodgers Knock Cards Out of 1st

30,781 See Pirates Cop Home Opener; Twins Shade Red Sox

By The Associated Press  
Bob Purkey apparently wasn't listening when Fred Hutchinson, the Cincinnati manager, declared at the season's start that the team's fate this year was in the hands of the young pitchers.

The veteran right-hander, who will be 31 in July, pitched his second straight victory Tuesday night, a 9-1 triumph over San Francisco, and boosted the Reds into first place in the National League.

It was Cincinnati's fourth success in six starts and Purkey's second complete game. The rest of the staff, which includes Jim O'Toole, Jay Hook, Jim Maloney and Joey Jay, all in their early 20s, have only one complete game among them.

**Pirates Tied For Second**  
The Reds own a half game lead over the St. Louis Cardinals, Giants and Pittsburgh Pirates, all tied for second. Los Angeles dropped St. Louis out of a first-place tie with a 5-4 night victory over the Cardinals and Pittsburgh moved up by beating the Chicago Cubs 5-3 in the only game played in daylight. Rain washed out the Milwaukee-Philadelphia game with the Braves leading 3-1 at the end of an inning and a half.

The elements played havoc with the American League schedule. Rain, snow and cold weather postponed all games but the one in Boston. Minnesota solidified its hold on first place, shading the Red Sox 3-2.

**Willie Mays Homers**  
Purkey, Cincinnati's leading pitcher last season with a 17-11 record, permitted the Giants only six hits and lost his bid for a shutout when Willie Mays led off the last of the seventh with his second home run of the season.

Wally Pion, Gene Freese and Gordon Coleman led a 10-hit attack on starter Billy Loes and two relievers. Post got a double and two singles, Freese drove in three runs with a pair of singles and Coleman clouted a three-run homer, his second of the campaign.

Home runs by Frank Howard, Wally Moon and Johnny Roseboro accounted for the first four Dodger runs but the last four winning runs in the sixth, was unearned. Pitcher Roger Craig, who went 6 2-3 innings and got the victory,

opened the sixth with a single and moved to third when Bill White threw wild after fielding Maury Wills' sacrifice bunt. An infield out scored Craig.

**Boyer Blasts 2 Out of Park**  
Ken Boyer drove in two Cardinal runs with a pair of home runs. Stan Musial batted in the other two. Rookie left-hander Ron Perranoski preserved Craig's first triumph of the season, disposing of White with two out and the bases full in the eighth.

Perranoski retired the side in order in the ninth, fanning Boyer and Daryl Spencer, who drove in five runs on Monday. Al Cicotte, Card starter, was charged with his second loss.

The Pirates scored twice in the seventh to snap a 3-3 tie against the Cubs. Dick Stuart, who had driven in a run in the fifth with a triple, knocked in what proved to be the winning run with a single. A squeeze bunt finished the extra run. Southpaw Venergar Bend Mizell, with the help of Elroy Face, was credited with the victory as Pittsburgh opened its home season before 30,781 at Forbes Field.

## North-South Tourney In Quarter-finals

PINEHURST, N.C. (AP) — Defending champion Barbara McIntire and Judy Eller, her foremost challenger, continued to head their respective halves in the North and South Amateur Golf Tournament field as quarter-finals came up today.

But trouble was brewing for both of the dark-haired charms today and, if they win, Thursday too.

Miss McIntire, of Lake Park, Fla., met Mary Patton Janssen, Charlottesville, Va., swinger, in the first of today's four matches. Miss Eller, from Old Hickory, Tenn., was matched against Judy Bell of Wichita, Kan.

The McIntire-Janssen winner will play a semifinals match Thursday against today's Phyllis Preuss-Mrs. Alex Welsh match survivor.

The Eller-Bell victor will be paired against the winner of the match between Barbara Williams of Richmond, Calif., and Doris Phillips of Belleville, Ill.

**Akron Handicap Slated Saturday At Ascot Park**  
The seventh running of the \$4,000 Akron Handicap for three-year-olds and up, over seven furlongs, next Saturday highlights the third week of racing at Ascot Park.

Racing Secretary Charles F. Henry will announce weights on Thursday evening. Pete Maxwell continued to lead the race for honors among saddle-smiths. He's saddled 11 winners including two-time winners Vale Choice, Sea Raider, Fort Surprise and Silver Dude. His other wins came with Reflected, Mr. Arrc and Jimmie Jr.

Frank Northcutt, contract rider of George Stribling, apparently plans to run off and hide from the other riders here. Northcutt has ridden 17 winners and brought his mounts into second spot seven times and the show hole four times. His win percentage is a healthy 33 per cent. Oviata Diaz and Forrest Kaelin are giving him principal competition in that department; Diaz with seven, Kaelin with six wins at week's end.

Track management is hoping for a break in the weather as the meet moves into the third week after 11 days of beastly weather. Post time daily is 2 p.m.

## Mother Squirrel Arranges 'Surprise' For Offsprings

That amphibious mother fox squirrel has done it again. For the second consecutive year she has taken up residence in a wood duck box, erected over water and 20 feet from shore.

The incident was reported by Roger McElroy, Division of Wildlife game management supervisor, who viewed the unusual happening at Grand Lake St. Marys, Auglaize and Mercer Counties.

Just why this squirrel decided to raise her family in such a hard-to-get place is best known to the squirrel. "Maybe," said McElroy, "she just likes to swim, because in order to get to the box she must swim about 20 feet. Then she must climb a steel post on which the duck box is mounted."

"While it isn't unusual for a squirrel to swim when forced to do so, this particular squirrel could have found another site on land as there are numerous den trees in the area. What a surprise those young squirrels in the box will get the first time they look outside. They'll probably wish they were flying squirrels."

## Out of Action for Month

## Snider Struck by Ball, Was Pitch a Duster?

LOS ANGELES (AP) — Duke Snider will be out for a month with the first broken bone of his career, and the Dodgers are indignantly suggesting it might not have been an accident that disabled him.

Snider suffered a cracked bone above his right elbow Monday night when he was hit by a pitch from St. Louis right-hander Bob Gibson — just two innings after

Snider tagged Gibson for a two-run homer.

Gibson denied any intent to hurt the veteran outfielder. But Dodger General Manager Buzzie Bavasi said in a telegram to National League President Warren Giles:

"For your information, Snider was hit with the first pitch thrown to him after he hit a home run. It looks as though the bean ball rule is only working against Dodger pitchers."

Dodger right-hander Stan Williams had just been fined \$50 for throwing a pitch that sailed over the head of Pittsburgh second baseman Bill Mazeroski last Sunday.

Gibson said Snider knocked an outside pitch over the left-field screen in the third inning, so he decided to pitch him inside the next time he came up.

"There may be a couple of guys in this game who try to hurt people," Gibson said, "but I'm not one of them. Naturally, I'm sorry, but nothing I can say now will help fix him up again."

The Dodgers said their wire to Giles was not an official protest. Snider himself accused Gibson of nothing. "It's just one of those things," said the Duke.

Ohio University, the winner a year ago, leads the 1960-61 race for the Mid-American Conference's All Sports trophy. The Bobcats, after five sports, have 29 points, Miami is second with 26 and Bowling Green third with 22.

**Little League Meeting Scheduled at Winona**  
An organizational meeting of Winona Little League baseball teams will be held at 7:30 p.m. Saturday at the Winona Fire Station.

Anyone in the Winona and Guilford Lake vicinity interested in Little League baseball is asked to attend. Plans will be made for the coming season, including the selection and approval of managers and the establishment of a Pony League.

## Conerly Signs Again With New York

By MIKE RATHET  
Associated Press Sports Writer  
NEW YORK (AP) — Charley Conerly, a gray-haired scrapper who has fought off a host of youthful challengers in the last several years, is ready for round 14 as the No. 1 quarterback of the New York Giants.

The dean of active National Football League players—he will be 40 two days after the season opens—ended rumors about his retirement Tuesday by signing for his 14th year of pro grid action with the Giants.

Terms of the one-year contract were not disclosed by President Jack Mara, who would only say Conerly was one of the NFL's highest-salaried stars. It is estimated the former University of Mississippi standout will receive \$25,000 to \$30,000.

As is his usual practice, Conerly told Mara as he agreed to terms: "I guess this will be my last time."

As is his usual practice, Mara smiled and replied: "Yes, Charlie."

Conerly's career is equalled in longevity among active NFL players only by Green Bay's Emlen Tunnell, a former Giant teammate.

Only two players—Washington quarterback Sammy Baugh and Giants center Mel Hein had longer careers. Baugh played for 16 years, Hein for 15.

In 13 seasons, Conerly has passed for 166 touchdowns and completed 1,374 aeriels for 18,854 yards—over 10 miles.

## Jim Rivera Raps JFK's Handwriting

Jim Rivera of the White Sox bounced around like a small child after he speared President John F. Kennedy's first pitch at the opening game in Washington, but later on he looked a little glum, reports The Sporting News.

"The guy's got bad handwriting," muttered Jungle Jim as he showed the autographed ball around. "How can I ever prove that the President signed this? It could be anybody's signature. And he went to Harvard!"

## OUT OF DOORS with Field & Stream

By RUFUS LIDE  
George Zepernick, former owner of what is now called the Zepernick area, retained five acres of land with the house and barn after selling the other 224 acres to the Division of Wildlife, including the 35-acre lake.

Looking out the window of his living room, he noticed a large bird hovering over the water before making a crash dive into the lake. It came up with a sizable fish in its talons and flew off across the highway to a tall dead elm tree.

The fish wiggled free and dropped to the ground. The bird flew away so, out of curiosity George walked over to see what kind of fish the osprey had captured. Ospreys are sometimes called "fish-hawks."

## Ramos 'Just Kidding,' Won't Fight In Cuba

Following the recent declaration of Pedro Ramos, the Minnesota Twins' pitching star, that he might return to his native Cuba to fight with anti-Castro forces, he said he was just kidding his manager, Cookie Lavagetto.

"I baseball player, great lover, no fighter," Ramos said with a wink to a writer for The Sporting News. "I stick to baseball. I no talk politics."

When someone suggested he might get shot for anti-Castro outbursts, Ramos replied, "You can't live forever. But I was just kidding Cookie when I say I leave club to return to Cuba to fight Castro."

## Major League Stars

By The Associated Press  
Batting — Lennie Green, Twins, had four hits in four times at bat, scored the first run and sacrificed the second run into scoring position as the Twins nipped the Red Sox 3-2.

Pitching — Bob Purkey, Reds, hurled a six-hitter defeating the Giants 9-1 for his second victory that boosted the Reds into first place in the National League.

The fish was still alive and flipping when he got there and it proved to be a sizable bass. All he had to do was scale it, dress it out, followed by a fish dinner. If you ask me . . . that's fisherman's luck without even wetting a line.

**WITH THE EXCEPTION** of a few creek suckers and an occasional bullhead catfish, fishing hasn't amounted to anything so far this season — too much rain and high water. Also, the delayed March weather persists in April with some snowing and plenty of blowing.

The weekends have been anything but fishing weather with the exception of last Saturday when part of the day was warm with sunshine. Even so, the water temperature remained at a cold 42 degrees. The fish have not moved in on the feed beds near the shore line.

**AGAIN THIS YEAR**, I will be banding doves. The small leg bands are placed on the young squabs before they are 10 days old. It could be they will nest in your yard. They prefer confiers, however, they will also nest in shrubbery or most any kind of a tree like an apple tree, etc.

I would appreciate people notifying me when a nest is spotted. The purpose of this banding operation is to study their migration. Doves banded in Ohio have been shot and reported in the extreme southern states.

Ohio is one of the few states where doves are classified as song birds and are protected by Ohio laws. Most states have an open season on doves including neighboring Pennsylvania.

**I HAVE RECEIVED** a few calls regarding using a boat and motor on Pymatuning.

All you need is an Ohio boat and motor license and you can fish all over Pymatuning as long as you keep off the Pennsylvania shore and do not land on any of the islands in the lake.

Naturally you must have a fishing license also.

## Laos To Ask For More Aid

### Four New Rebel Drives Reported

By The Associated Press

The Laotian government decided today to ask its "friends and neighbors" for help, declaring four new rebel offensives backed by Communist troops from North Viet Nam threaten Laos and all Southeast Asia.

Foreign Minister Tiao Sopsaisana said Laos wants more and better arms and a full-fledged U. S. Military Assistance Group to replace the civilian body now training Lao troops.

He asserted Laos is thinking of asking for foreign troops if the situation worsens.

The foreign minister did not say who besides the United States would be asked for help but indicated it would be neighboring Thailand and South Viet Nam.

There was no confirmation from Western sources in Laos of any massive rebel attacks, but the decision to seek more aid, including troops if necessary, was interpreted as an indication the situation is worsening.

Britain launched another diplomatic move to end the fighting. Foreign Secretary Lord Home announced in London that Britain has asked the Soviet Union to join in issuing a call for a cease-fire Thursday.

Sir Frank Roberts, Britain's ambassador in Moscow, was instructed to try to get an immediate cease-fire, Lord Home said, and conferred with Soviet Foreign Minister Andrei A. Gromyko.

Lord Home said Britain wants a 14-nation conference on Laos to open May 5, after an international commission has verified the fighting has stopped. The United States also insists on a cease-fire before a conference.

In Bangkok, Thailand's Premier Marshal Sarit Thanarat said the Soviet Union has suggested May 5 as the date for the 14-nation conference. But he said the Soviets insist on recognition of neutralist ex-Premier Souvanna Phouma as Laos' chief of state.

Souvanna now is recognized by the Soviet Union and the pro-Communist Pathet Lao rebels in Laos as the nation's legal premier. Heading home from a conference with Soviet Premier Khrushchev, Souvanna canceled a planned trip to Washington. He will stop off in Peiping.

### Newell Defendant Receives Probation

LISBON — One defendant received probation at hearings before Common Pleas Judge Joel H. Sharp Tuesday and the probation requests of two others were tabled.

Joseph E. Raimond of Newell was placed on five years' probation for possessing instruments for administering drugs. He was cited by the East Liverpool police June 26, 1959.

James H. Martin, 37, of Wellsville, and Robert Wright, 30, of East Liverpool, charged with theft of gasoline from the American Oil Co. bulk plant in East Liverpool, also requested probation.

In deferring action on these requests Judge Joel H. Sharp said testimony showed a "very sloppy handling of records" by the gasoline firm.

## Council

(Continued From Page One)

only one vehicle to patrol city streets.

An ordinance was passed authorizing the service director to advertise for bids and enter into contracts for the purchase of flood lights, poles, fixtures and other accessories to be used to light the new municipal parking lots.

### Tennis Courts Reviewed

The controversial ordinance for the construction of three hard-surfaced tennis courts at Centennial Park, defeated by Council 4-3 two weeks ago, became a main issue again when a motion by Councilman Carl Abe (R-at Large) to reconsider the ordinance was passed by the group 5 to 2.

Councilman Abe, who voted against the ordinance at the last session, said the motion for reconsideration of the ordinance was thought advisable after his Parks and Playgrounds committee had met with the Salem Park Commission recently.

He said his motion did not mean he had changed his vote on the matter, but that the Park Commission had come up with additional suggestions for the construction of the courts that his committee felt should be heard.

Park Superintendent C.F. Tomlinson told Council that a more recent investigation has shown that the courts could be built from a different surface material and cost the city \$14,848 instead of the \$17,073 quoted earlier.

Tomlinson also presented more facts in support of the new courts. However, the ordinance received no further action because Council did not know the proper procedure in reopening the defeated law for second round consideration. The group tabled the ordinance for the next meeting to await a decision by City Solicitor Scott McCorkhill on proper procedures in the case. McCorkhill is on vacation and was absent last night.

**IN OTHER ACTION,** Council agreed to have Mayor Dean Cranmer meet with the solicitor to draw up legislation for the proposed resurfacing of Columbia St. The legislative group also moved to have the Mayor meet with state officials to outline plans for a combined effort between the city and state to resurface Franklin Ave. from S. Lincoln to the city limits and to ease the two curves along Franklin. It has been indicated that the state will aid the city in the project.

A letter was read to Council from Mrs. Velma H. Matthews of 1134 E. 3rd St. who petitioned the city to correct the excessive flow of water that has been draining her land of topsoil due to recent excavations for the E. Fourth St. extension.

Councilman Alfred Lesch (D-1st Ward) asked Mayor Dean Cranmer why the turn arrow had been removed from the traffic signals at the corner of W. State St. and the Benton Road. He said he had received numerous phone calls from persons desiring the continuous right turn remain at the intersection.

The mayor said the arrow signal was taken down last week because there had been three traffic accidents in three days at the intersection due to traffic speedily making the right turn without caution. He said the continuous right turn was being allowed only when drivers slowed down for the turn with caution in anticipation of right-of-way traffic crossing W. State St. from Pine Ave.

He said, however, that he and the safety director decided to remove the turn signal until a better traffic safety solution could be instituted "before someone gets killed there."

A letter was read to Council from Mrs. Mildred Hundertmark of 424 W. State St. requesting that the proposed railroad crossing overpass not be constructed. She said the grade crossing would force property owners near the crossing to move from their residences to make room for the structure.

## Deaths and Funerals

## William Walperts Plan 60th Wedding Anniversary

Mr. and Mrs. William J. Walpert of Washingtonville Road will quietly observe their 60th wedding anniversary Sunday.

Miss Mary Mundy and William J. Walpert were married April 23, 1901, in St. Paul Catholic Church, with Rev. G. C. Schone-mann officiating. Frank Lippert and Miss Clara Lippert attended the couple.

The Walperts have two sons, Raymond of Akron and Charles of Salem; three daughters, Mrs. Donald Sanor, Mrs. William Chaplow, both of Salem, and Mrs. William Prior of Leetonia; and 13 grandchildren.

A retired employe of the Bliss Co. and the former Buckeye Engine Co., Mr. Walpert in earlier years made ice cream and sold it to customers throughout Salem from a horse-drawn wagon. Mrs. Walpert baked the cones on a cone oven and rolled them by hand.

Since his retirement, Mr. Walpert has occupied his time with his hobby of repairing watches and clocks. Mrs. Walpert still bakes her own bread and spends her spare time crocheting and doing fancy work.

The Walperts recall that on their wedding day there still remained much of the snow that had fallen April 19 during the "worst storm in half a century, with snow two feet on the level and drifts six to 12 feet high in many places."

## Becomes Engaged

Janet Gale Ritchey

Mr. and Mrs. Harold F. Ritchey of the Garfield Road announce the engagement and coming marriage of their daughter, Janet Gale, to Roy Lee Borders, son of the late Mr. and Mrs. B.D. Borders of Alabama.

The open church wedding will take place June 4 at 2:30 p.m. in the Chapel of the First Methodist Church. A reception will follow in the church parlor. No invitations are being issued.

Miss Ritchey is employed by The Silver Manufacturing Company. Mr. Borders is employed by Earl Dickey Feed Services.

**PROGRAM IS PLANNED**  
LISBON—A program on "spring meal planning" will be presented when the Knox Township Home Demonstration Group meets Tuesday from 1 to 3 p.m. at the Ohio Edison Co. in Alliance. The company's home economist will present the program, according to Miss Julia Shank, county extension agent in home economics.

## Lisbon Social Notes

Members of the WCTU met Monday at the home of Mrs. Lawrence McCormick, opening with prayer by each member.

Mrs. Homer Bell, president, gave a report of the institute held recently at the Friends Church in Damascus, which several members attended. Mrs. Herbert Johnson led the devotions.

Mrs. McCormick was in charge of the program and reviewed chapter 12 of the book "What Alcohol Is and What It Does." Mrs. Bell presided over the business. Plans were made to visit the County Home July 16 and a day youth camp during the summer.

Refreshments were served by the hostess, assisted by Mrs. Bell.

The next meeting will be held May 16 at the home of Mrs. Carl Williams of Lisbon-Columbia n a Road.

**THE CHRISTIAN WOMEN'S** Fellowship Guild of the First Christian Church met Monday evening at the church, with Miss Meretta Ikirt, president, presiding.

Mrs. Harold Adams led the devotional service, and Mrs. Paul Eells gave a talk on the history of CWF. She read excerpts from the minutes of a girl's guild of the local church during the years 1924 through 1931.

Lunch was served by the hostess, Mrs. Willis Coleman.

The next meeting will be May 15 when pictures will be shown and a talk given on "Missions in Mexico."

The Inez Marsden Circle of the First Methodist Church met Monday night with Mrs. Don Morris of Jerome St.

Mrs. Peter Cibula, president, was in charge of business. Election of officers was held as follows: Mrs. Kenneth Everett, president; Mrs. Ted Greener, vice president; Miss Jetty Liggett, secretary; Mrs. Morris, treasurer, and Mrs. Don Myers, secretary of the church nursery.

Miss Liggett was in charge of the program and introduced Mrs. Pat Klein who gave a hair styling demonstration and beauty tips. Mrs. Blair Lewis was the model.

The group made plans to visit the Methodist Home for Aged at Elyria May 14, following church service and also planned to hold a picnic in June.

**"BROADWAY PLAYS"** was the topic for the program presented by Mrs. George Nace Jr. when Monday Club met this week with Mrs. W. A. Frew at her home on E. Lincoln Way.

Mrs. Marie Parry, president, presided over a short business meeting.

The May 1 meeting will be at the home of Mrs. George Nace Jr. of N. Park Place when Miss Ruth Maple will have the program.

Mrs. Janet Burbick was hostess to the Churchhill Cackle Club Monday night at her home in Guilford.

Five hundred was the diversion, with prizes won by Mrs. Bruce Sullivan and Mrs. Ernest Reisinger, a guest. Mrs. Katherine Bush won a special prize.

### FICTION

**A LAMENT FOR BARNEY STONE** by Robert Glynn Kelly. A satiric and funny story of the academic career of Barney Stone at an imaginary college. But the author is completely at home in the college scene and his judgment of it is authentic if not at all kind.

**THE PAPER WALL** by Ira Morris. Another professor is the principal subject of this novel. Set in Japan, the principal character has come there to spend his sabbatical year because he has been too liberal-minded to suit the administrators of the university where he taught in the States. His sin being non-conformity, we find him unable to get away from his problem even in so remote an area.

**A BATTLE IS FOUGHT TO BE WON** by Francis Clifford. A study of fear and how fear of being afraid can be transmuted into courage. The background is Burma during World War II. The characters are British and native soldiers of India.

**SOMETHING LIGHT** by Margery Sharp. Louisa was fond of men, but at the age of thirty she

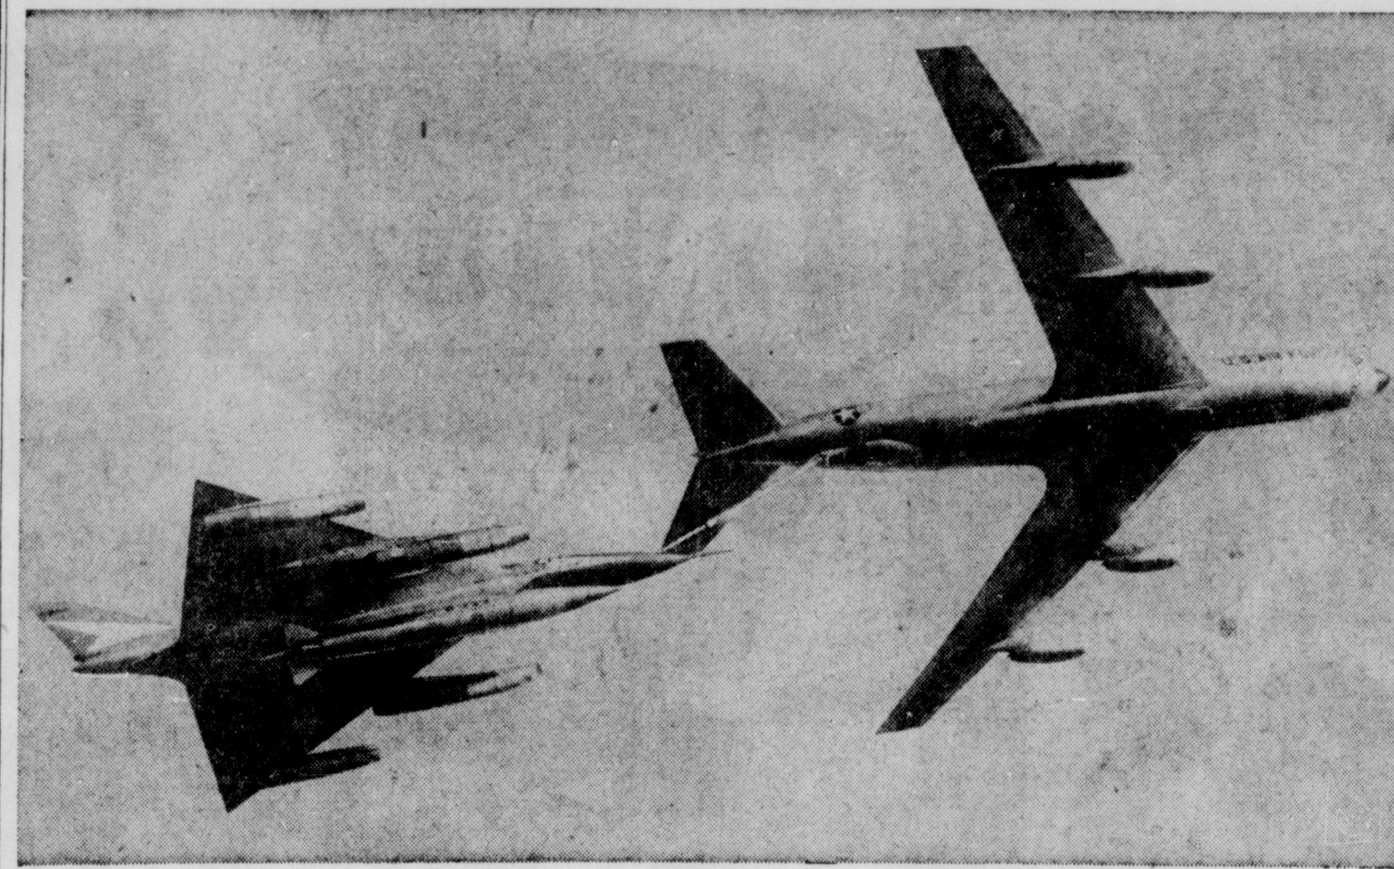

found herself still single, although constantly doing some kind of personal favor for some man or other. What happens when she sets her mind to bagging a husband make a delightful story.

**MOMENT OF GLORY** by Thomas Thompson. A collection of ten short Western stories. They range from violence to idealism and strictly man-stuff to one story where love conquers justice.

### NON-FICTION

**THE GENTLE LEGIONS** by Richard Carter. A history and appraisal of such organization as the Red Cross, The American Cancer Society, the National Tuberculosis Association, the Heart Fund. The author tells also of their method of collecting funds and what they do with them.

**AMERICAN ECONOMIC HISTORY**, edited by Seymour E. Harris. A general survey of the subject by twenty-two of the country's leading economists. Authors were chosen on the basis of their competence in their fields and general competence in economics. They distinctly do not all agree about economics. A valuable book for reference and study.

**FILL 'ER UP, SIR?** — A B-58 Hustler, capable of twice the speed of sound, and an Air Force KC-135 (military version of the commercial 707 jetliner) are connected by a refueling boom over Fort Worth, Tex. The Hustler, fastest U.S. bomber, is built in Fort Worth by Convair. The tanker is built for Strategic Air Command by Boeing in Seattle.

**THE WELLSPRINGS OF LIFE** by Isaac Asimov. A distinguished scientist and ever-busy writer turns his attention to the origins of life and the history of belief and scientific investigation about it.

**VICTORY OVER SPACE** by Albert Ducrocq. An exposition of the youthful science of astronautics. The explanations are authoritative yet simplified for the benefit of the layman. He concentrates on the various developments of the past few years and explains how scientists from various countries have overcome obstacles in the way of space flight.

**INTRODUCTION TO TEXTILES** by Evelyn E. Stout. Although planned primarily as a text, this book will make profitable reading for any person who buys clothing. In it you can learn the wide varieties of fabrics now on the market, their character-

istics, and how to choose fabrics wisely. You can also learn how to care for various fabrics, and what you can expect of the various types.

**WOOD-WORKING CRAFTS** by Raymond Van Tassel. Whittling, Coping Saw work, Joinery, Inlaying and Veneering, Wood Carving and Wood Turning are discussed for the beginner.

**HOW TO WRITE, SPEAK AND THINK MORE EFFECTIVELY** by Rudolph Flesch. The author of *THE ART OF PLAIN TALK* and other popular titles on speech and writing improvement here puts together a symposium of what he considers the most useful parts from many of his books and articles.

**THE LADDER OF VISION: A STUDY OF DANTE'S COMEDY** by Irma Brandeis. A detailed analysis of the characters of the famous classic, and an explanation of the structure of the work as a whole.

**A HISTORY OF MEXICO** by Henry Bamford Parkes. The story of Mexico from the earliest times down to 1960. The author is professor of history at New York University.

**THE LOST PHAROHS** by Leonard Cottrell. An account of Egyptology for the amateur, with a brief historical preface. His effort has been to recount the work of the archeologists who have made the significant discoveries in a manner to make it interesting to the layman.

**THE IRON BRIGADE** by Alan T. Nolan. The stream of books on the Civil War shows no sign of lessening. This one gives an account of the four regiments made up entirely of men from Wisconsin and Indiana known as the Iron Brigade - the most famous unit in the Union Army, and the one with the highest percentage of casualties.

**THE LIFE AND TIMES OF TARQUIN THE ETRUSCAN** by

Carlo Maria Franzero. A study and history of Etruscan civilization on the basis of new discoveries. The author traces the Etruscan history from hundreds of years before the founding of Rome to the destruction of Tarquin's power.

**CONFESSIONS OF A HAPPY MAN** by Art Linkletter. Personal recollections of an old-timer of show business whose many fans will want to know more about his private life and his early trials and tribulations when trying to get ahead in show business.

## Columbiana Council Sets Park Pay Rate

COLUMBIANA — An ordinance establishing rates of pay for part-time and student employees at Firestone Recreation Park was adopted by Village Council at its meeting Tuesday night.

Full-time employees are covered by an existing wage ordinance which governs regular village workers.

The new measure, which takes effect June 1, sets up the following scales: Regular lifeguards and skilled labor, \$1.25 an hour; substitute lifeguards, cashiers and common labor, \$1; pool sanitation workers, 70 cents; locker room attendants, 50 cents, and ground policing workers, 25 cents.

John Robinson, chairman of the safety committee of Council, reported the group favors having repairs made to the police department base radio at this time rather than investing in new equipment as had been suggested. He said the police radio frequency is scheduled to be changed in 1963 which, he said, would be a more appropriate time for a change-over in equipment.

**ANNUAL SPRING CONCERT** by the Columbiana High School Chorus, under the direction of Mrs. E. Gordon Warner, will be held Friday at 8 p.m. in the high school auditorium. The director said the youthful singers have a wide variety of songs for presentation at the public event. Admission is set at 50 cents for adults and 35 cents for students.

King's Daughters Class of Grace United Church of Christ will be hostess to members of the Queen Esther and Wide Awake classes Thursday at 8 p.m. in the church social room.

April meeting of the Columbiana school district board of education will be conducted to night at Dixon school.

**THE JAMES FITZPATRICK** memorial award as outstanding 4-H member of the area was presented to Raymond Moser of the Fairfield Boosters at the Rotary Club dinner meeting Monday night. Son of Mr. and Mrs. Albert Moser of RD 2, Columbiana, Raymond now is studying in the college of engineering at Youngstown University. He has been active in 4-H work for 10 years. The award was presented by Charles Harper.

Two other honor awards also were made at the meeting—to the area's outstanding Scouts, Bettie Jean Barber, daughter of Dr. and Mrs. R. A. Barber, received the plaque as top Girl Scout, and Duane Spiker, son of Mr. and Mrs. R. G. Spiker, the award as No. 1 Boy Scout for the past year. Eugene Crawford, Rotary president, announced the Boy Scout award and Elmer Detwiler Jr. the Girl Scout selection.

Special guests included Mrs. Lawrence Davis, Girl Scout leader; Joseph Burger, county extension agent for 4-H work; William Rymer and Gary Wilms, advisers to the Fairfield Boosters 4-H Club; William Fahndrick, Troop 18 scoutmaster, and Norman Spiker, assistant scoutmaster.

Members of the Friendship Class of the First Methodist Church will meet Thursday at the church. Mrs. Hazel Crawford will have devotions.

Annual spring dinner of the Philo Class of the Methodist Church will be held Thursday at the Parkview House in Canfield.

Members are to meet at the church at 5:45 p.m. from where transportation will be arranged.

Mrs. Beryl Patterson had a 1956 game and 510 series and Mrs. Ethel Bricker a 1956 game with 578 series to pace individual action in the Monday Night Ladies Bowling League at Kyser's Lanes.

Heck's Restaurant remains in comfortable command of the first place spot.

Women of the church board, all general officers and circle presidents of the Lutheran Church will meet in the church Thursday evening.

Twenty-two attended the Tuesday meeting of the Twilights club held in the Lutheran Church.

After a short business meeting, making of cancer pads and playing games, a lunch was served by Mr. and Mrs. Wilmer Verian.

Guests were Mrs. E. Barber, Leah Ellis, Mrs. Hineman, Jr. Wilson and Mrs. Kathryn Eakin. The next meeting will be May 9. Dr. and Mrs. James Garstick spent last weekend in Columbus.

King's Daughters, Queen Esther and Wide Awake classes of Grace United Church of Christ will have a joint meeting at the church Thursday at 8 p.m.

James R. Chaddock left Tuesday for his next Air Force assignment at the Air Defense Sector, McChord air base, Seattle, Wash. He has spent his leave of absence with his parents, Mr. and Mrs. J. P. Chaddock on S. Main St.

Mrs. Nell Robb and daughter Ruth were Tuesday dinner guests of Cora Henry, Vine St.

Relatives here received word of the death of Carl Leshner on Friday in Indianapolis, where he has resided since leaving Columbiana.

He was buried in Indianapolis, Monday. Among those who attended the funeral were Mr. and Mrs. Paul Leshner, Mr. and Mrs. William Harrold, Mr. and Mrs. Gordon Rheil and Mr. and Mrs. Harry Ginther. Oscar Leshner of N. Main St. is a brother of the late Carl Leshner.

**A SMILE IN A LIFE OF PAIN** — Eighteen-month-old Peter Lollar plays with a toy and smiles up at his mother, Mrs. Oris Lollar at Little Rock, Ark. Peter makes his bones brittle as toothpicks. He cannot cough and fear of breaking a bone. All his life he has lain on his back. If he lives to adolescence, doctors say his bones may become less brittle.

## County School Board Hears Reports, Opposes Ohio Bill

LISBON — The Columbiana County School Board went on record Tuesday night as opposing Ohio House Bill 119 which would take away from the State Board of Education the authority to rule on transfer territory for school purposes following municipal annexations.

The board will notify State Representatives Clarence (Dutch) Wetzel and J. Warren Bettis of their opposition to the measure.

Several reports were presented at last night's meeting.

School Supt. James L. McBride and Lorin Ruff, elementary consultant, reported on the American Association of School Administrators meeting at Philadelphia which they attended last month.

McBride also spoke on the two-year community college programs in other states, and criticized Ohio's lack of action.

The superintendent issued a reminder to board members that the Columbiana County Education Assn. will hold its spring meeting Thursday at 6 p.m. at Beaver Local High School.

Ruff said a reading workshop will be set up next term to improve the county reading program through various teaching techniques.

Hubert Lawrence, county school psychologist, commented on the recent visit of S. J. Bonham Jr., state psychologist, who commended the county program. Lawrence discussed the program and progress he has made since he was hired by the board.

Mrs. Marilyn Solak, high school consultant, reported on the North-

eastern Ohio School Supervisors meeting Monday at Canton. Mrs. Solak, president of the group, will preside. The county staff will help with the district meeting.

Mrs. Solak also reported on the progress made for the adoption of history books for the 10th grades in all county high schools.

Bills of \$411.26 were approved and ordered paid.

The board's next meeting will be May 16, at 8 p.m. in the county offices in the Courthouse.

## Brokaw To Argue Cases Before Supreme Court

LISBON — County Prosecutor G. William Brokaw said today that criminal trials scheduled to start the week of May 1 will be postponed because he must appear before the State Supreme Court in Columbus May 2 and 3.

The case of Mike Stutler, former East Liverpool officer convicted of breaking and entering, will be heard May 2. Stutler was found guilty by a common pleas court jury but the verdict was reversed by the seventh Court of Appeals. The case was then taken to the Supreme Court by Brokaw.

On May 3 Brokaw will argue the case of four Republican appointees who the State Civil Service Board will not authorize for payment. Four Democratic jobholders replaced by the Republicans Feb. 1 claim they have Civil Service status and cannot be discharged.

## Clinic Board Meets, Names Two Trustees

F. W. McKee of Salem and H. O. Stanley of Damascus were re-elected to three-year terms as trustees of the hospital when the Central Clinic and Hospital Association held its annual meeting Monday.

Other trustees are Dr. L. A. Cobbs, W. F. Stevenson, Harry Krohne, Dr. R. J. Starbuck, Atty. H. L. Reese, Dr. G. A. Reese and W. F. Deming, all of Salem, and William M. Morgan Jr. of Lisbon. New members elected to the Association are Thomas Kneifel, Robert Wilson, Joseph Celin, Louis Maneri, Charles Schaeffer, Mrs. Ray Stiver, Ralph Martin, Delmer Smith, Philip Cahill, Robert Ellyson, Thomas Williams, Jack Rance, Gordon Scott and Arthur Stone.

Dr. Reese presided and stated that the hospital had just completed the most outstanding year in its 40-year history, and that for the first time, the hospital is debt-free.

He said that the hospital is ready to again move forward in its service to the community, and that while no specific plans or recommendations have yet been formulated, a progressive plan will be revealed later.

The financial and statistical reports of the hospital's operation were given by Albert R. Hanna, administrator. He gave the 1960 report and a comparative report of 10 years ago, revealing that the utilization of every area in the hospital has increased.

Hanna further stated that the hospital's operating costs approximate the average for statewide hospital operations even though the Clinic is in the highest cost area in the state. In rates established in 1959 operating costs, the average for all hospitals was \$25.35 per patient day, while this hospital's rate was \$25.71.

A discussion was held on the subject of health of the aging and it was unanimously agreed by the Association membership that the Board of Trustees consider expanding the hospital's present study committee on this subject to include broader community representation.

## Obnoxious Remarks

By HAL BOYLE

NEW YORK (AP)—Remarks at a Greenwich Village Bohemian gets tired of hearing: "Algernon isn't really afraid of work. He can lie down right down by it and fall asleep." "After all, Algernon's got everything Shakespeare has — except fame, fortune, talent and a dinner."

"What you need is to do something spectacular to get public attention. How about going into Grant's Tomb and reciting your poems by candlelight? There must be an old candle around here someplace." "I know you are careless about what the world thinks, Algernon, but would you please quit scratching? It looks so plebian." "If you want to take a bath, come over to my studio tonight."

This is the day we have hot water. "Don't speak to him now. He's heartbroken. He finally decided to prostitute his art by writing a television soap jingle, and they turned it down. They said it was too commercial." "His real trouble is he paints like Edgar Guest and writes like the fellows who draw mustaches on subway posters." "Algernon started off by being

a character. Now he's just a lack of character." "He's been nervous all week. It started when the State Unemployment Office offered him a steady job." "No, I wouldn't call Algernon a beatnik. How could you? He never was beaten. He never put up a fight." "Algernon, you had the cot last night. Tonight it's your turn to sleep on the floor." "Hide the gin. That sounds like

Algernon knocking at the door." "Gee, I'd just love to stay and hear you recite your poetry, Algernon, but I'm already late to another wake."
